Matériel:

Cordes: 2 x 60m

Résumé: (traduction alternative)

Alpine canyon with beautiful views and high rappels

Hydrologie: (traduction alternative)

Generally only little water

Accès: (traduction alternative)

The best place to park is on the north side of Lake Achensee, at the Achenkirch hiking parking lot (47.500, 11.702)

Approche: (traduction alternative)

Follow the signs to Kogelalm (approx. 50min). At the Kogelalm follow the ridgeline up, there is a vague path to be found. Once you reach a flatter and open area (roughly 1600 meters of elevation), start traversing to the south. Stay roughly on this elevation and you can find a small "side canyon" which lets you into the Gaisalmklamm (with a large amount of bushwhacking). Alternatively, ascend another 100 - 200m and make your way in from the top over the scree slope.

Tour: (traduction alternative)

Plenty of high rappels and nice views. The canyon starts of being very open but gets quite deep towards the exit, though never extremely narrow. Crumbly limestone with old achors (2020), so bring a drill or at least an emergency drill set. Some downclimbing required if you don't want to spend all day drilling anchors at every downclimb.

Retour: (traduction alternative)

Take a quick dip in the Achensee, then either take the ferry towards Scholastika, or (cheaper and more reliable) take the Mariensteig back north.

Rapports:

2024-06-23 | Clarissa Linder | ★★☆☆ | 📖★ | ⚓★ | 🌊 Haut | 👍 Terminé

Definitely climb higher! (as described, you come cross-country through mountain pines, side arm at risk of falling and falling rocks, access was longer for us than the canyon itself) Great high rappel with a view of the lake! Ideal after rain. Newly drilled 2x. (traduction alternative)

2020-10-04 | Montie | ★★☆☆ | 📖 | ⚓★ | 🌊 Normale | 👍 Terminé

Great fun for those that like alpine canyons with high rappels! The ascent and the way back take some effort though. Anchors (usually old single bolts) were in pretty bad shape when we were there in 2020 and in 2019.
