Résumé: (traduction alternative) Short rappel canyon		
Hydrologie:		
Accès: (traduction alternative) From Belluno take the SS 203 in the direction of Agordo. After passing through the village of Mas (8 km from Belluno), continue in a northerly direction up the orographic left bank of Torrente Cordevole. About 5.5 km after Mas you will reach the houses of the hamlet of Casa Candaten, where to the west of the road there is also a caravan park and a picnic area. It is advisable to park the car a few hundred meters before reaching the houses of Candaten in a side path to the left of the road (dead end).		
Approche: (traduction alternative) Cross the Torrente Cordevole and head towards the opposite cut of the Valle delle Montarezze. Here you can walk along the path behind the stream and look at the final waterfall (if you want). The ascent track goes up on the orographic. right edge of the slope until a path overgrown with grass goes horizontally westward to the entry.		
Tour: (traduction alternative) 6 rappels in direct succession without major walking passages. The Valle delle Montarezze is located in the Parco Nazionale Dolomiti; so far, canyon climbing has been tolerated, but it is not advisable to try to meet the rangers. The management of the A.I.C. has been negotiating for some time with the National Park Administration.		
Retour: (traduction alternative) After the last waterfall exit to the right, turn left over the footbridge and then through Torrente Cordevole back to the car.

Automatisch importiert von Descente-Canyon.com für Canyon Montarezze Petit canyon sympa, très esthétique, a ne pas sous estimer. Attention,le sentier d'accès et de retour sans traverser le collecteur (impossible aujourd'hui) a été emporté par les crues du début de semaine, il est maintenant quasiment impossible d'y passer...
