Résumé: (traduction alternative) Small rappel canyon in shale; can be climbed in 3 parts.		
Hydrologie:		
Accès: (traduction alternative) From Chur we drive via Trins-Mulins to Flims. There, pretty much at the beginning of the village, we take the road on the right up towards Fidaz and Bargis. After passing Fidaz, we come to a large parking lot where we park our car (1245m altitude).\n\nFurther up to Bargis is either by bus, by bike or on foot (about 1 hour).		
Approche: (traduction alternative) Arrived in Bargis (1550m altitude) we follow the road still over the Turnigla bridge and then take the dirt road up to the right. At 1870m altitude, the trail crosses to the western side of the stream (entry to the lower part) and moves up there to 2000m altitude. Here the trail leads back to the eastern side of the stream (entry to the middle part) to an alpine pasture.\n\nTo the entry to the upper part, the trail continues uphill on the orographic. left slope of the Turnigla. At the latest at 2130m altitude (possibly also further down) we then enter the upper part.		
Tour: (traduction alternative) Small rappel and downclimb in a not very deep gorge.\n\nIn the third part, the creek then descends deeper and we encounter passages where the canyon is briefly "capped".\n\nWhere the gorge ends, we exit above a footbridge to the right.		
Retour: (traduction alternative) We follow the tracks downhill and quickly reach Bargis.

Automatisch importiert von Descente-Canyon.com für Canyon Lavandignas Magnifique canyon. Fait que la partie 1 et 2. Du coup beaucoup de marche pour peu de canyon. Mais ça en valait la peine. Soleil à 11h. Quelques points à remplacer et certains à poser pour que ce soit plus confortable... (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22683/observations.html>)

Very nice water level at the moment. Unfortunately none of the pools are deep. (traduction alternative)

Quite aquatic. Climbed to the exit before the end. All anchors in order. Mostly single bolts, sometimes double bolts towards the bottom. The first part is very impressive, the bottom also looks great. (traduction alternative)

Automatisch importiert von Schlucht.ch für Canyon Lavadignas, Wasserstand: "Sehr niedrig" Verankerungen: "Oben sehr verrostete Maillons, Mitte super, unten schlecht" Schöne Tour mit ein paar Laufeinlagen, im unteren Teil muss man ein paar natürliche Verankerungen nutzen. Einige Veränderungen seit dem letzten Mal. (Quelle: <https://schlucht.ch/schluchten-der-schweiz-liste/1199-lavadignas>)

Lower part needs some anchors, because otherwise it is rather tedious. The upper part has some rusty maillons. (traduction alternative)

Pure rappel and downclimb canyon. Beautiful parts, but not exciting compared to other tours (traduction alternative)
