Résumé: (traduction alternative) Canyon for downclimbing and rappeling		
Hydrologie:		
Accès: (traduction alternative) From Braga on the N 103 (east) towards Chaves. After 45 km you reach Ruivães. If you have a second car, park it about 3 km before Ruivães on the N 103, where a dirt road comes up from the bottom left, see map at https://www.docuwiki.infobarrancos.es/doku.php?id=portugal:braga:saltadouro		
Approche: (traduction alternative) At the exit of the right-hand bend, where the upper vehicle is parked at the edge of the N 103, a small paved road goes down to the left. This meets a similar road coming up from the right. Follow the latter on the left (in a south-westerly direction) down to the stone bridge over the Saltadouro (entry on the left).		
Tour: (traduction alternative) In the chaos at the exit, the rappel anchors are not always easy to find; twice you rappel on rope slings through narrow holes into cavities below.		
Retour: (traduction alternative) Turn left at the bridge. If you have parked a second car, follow the dirt road to the left (in a southerly direction) up to the N 103; if you only have the car in Ruivães, follow the dirt road to the right over the bridge in a northerly direction until you come to a small road that leads up to Ruivães, see map section in https://www.docuwiki.infobarrancos.es/doku.php?id=portugal:braga:saltadouro .

First part (2/3rd) is super boring, only some pools make it bearable. The final... It could be pretty and amusing with a completely different rigging approach. The now existing explo-style is rather a desperate action: no drilling, but old pitons, rotten webbings and rusty maillons only, leading to uncomfortable narrows. Many thanks to the one who cut his/her new-looking Iris rope for the worst looking places. The cave at the end is not accessible any more from the top, some boulders are stuck in the entrance, don't even look for it. There is a weird rappel instead on the right. (In fact, all the anchors are on the right.) Fierce dogs on the way back. Fun otherwise. :)
