Pays: Schweiz / Switzerland Région: Kanton Schwyz Sous-région: Bezirk Schwyz Ville: Hinterthal		
Difficulté: difficile	Niveau: v4 a5 IV	Temps total: 4h15
Temps approche: 5min	Temps tour: 4h	Temps de retour: 10min
Altitude d'entrée: 910m	Altitude de sortie: 630m	Altitude du delta: 280m
Longueur du canyon: 800m	Rapelle le plus haut: 24m	Nombre de rappelles: 28
Transport: Voiture obligatoire	Type de roche:	Zone de prise d'eau: km ²
Saison:	Orientation: Nord	Meilleur moment:
Évaluation: ★ 4 (6)	Info: ★ 2.3 (3)	Belay: ★ 2.3 (4)
Spécialités:		
Matériel: Cordes: 3x30m		
Résumé: (traduction alternative) Aquatic rappel canyon; cold water with mostly great force; beautiful formations; relatively narrow, no high side walls, but still only one emergency exit possible in each of the upper and lower parts; but exit and access possible at the road bridge that spans the canyon approximately in the middle (710m above sea level). Lower section easier (here highest rappel 18m).		
Hydrologie:		
Accès: (traduction alternative) From the village of Schwyz (in the canton of the same name) to the east of Lake Lucerne, we ride uphill along the Muota to Muotathal. We cross the village and reach the district of Hinterthal at its exit. Here the road bends sharply to the left and crosses the Muota. However, we drive straight ahead before the bridge (an inn on the left-hand side of the stream) and park the lower car in a suitable place. With the second car, we turn right at the inn in the direction of "Hürital". The steeply ascending road crosses the Hüribach at 730m above sea level, continues uphill in a long serpentine to cross the Hüribach again. Park the second car here. If you only have 1 car available, take the hiking trail that leads up the orographic right side of the Hüribach (approx. 1 hour).		
Approche: (traduction alternative) Directly from the bridge.		
Tour: (traduction alternative) The jump pools shown in the topographic view may be gravelled, so check carefully! After the spring floods, anchors may also be damaged or knocked out. However, it can also happen that (as in the Zanaibach, for example) rocks under the anchor are washed away and the anchor is no longer accessible or only accessible with difficulty. The time given for the descent in the canyon can be reduced to about 2.5 hours depending on the water level.		
Retour: (traduction alternative) Before reaching the houses, turn right and cross the meadow to the car below.		
Coordonnées: Fin du Canyon 46.9713 8.7728 Départ du Canyon 46.9637 8.7736 Parking à l'entrée 46.9637 8.7734 Parking à la sortie 46.9731 8.7737 Sortie intermédiaire du canyon 46.9686 8.7739

Automatisch importiert von Descente-Canyon.com für Canyon Hüribach L'équipement est devenu vraiment limite! mérite un rééquipement (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21334/observations.html>)

Automatisch importiert von Schlucht.ch für Canyon Hüribach, Wasserstand: "Debit correct" Verankerungen: "Alt, aber i.O." Teilweise super rutschig zu gehen und überraschend kalt (Quelle: <https://schlucht.ch/schluchten-der-schweiz-liste/1055-hueribach>)

Automatisch importiert von Descente-Canyon.com für Canyon Hüribach Amarages correct, souvent en double avec chaine. Parfois caché sous la mousse ;-). Dans la partie inférieure au C9 (?) il y a un qui est presque inaccessible (RD, en haut, grimpe risqué sur une crête, positionné dans un creux derrière la crête) qu'on devrait placer ailleurs. Assez glissant, surtout hors de l'eau. Sinon, magnifique canyon ! Contact très gentil avec la centrale électrique. Demandez qu'ils arrêtent le mécanisme automatique. Attention : pour le parking amont ne laissez pas les voitures directement au pont. L'espace libre à côté de la rue est nécessaire pour la circulation (l'esquive). Il y a une grande place (bûcherons) 200 m plus haut à gauche. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21334/observations.html>)

2024-08-24 | Juan Montesinos | ★★★★★ | 📖★ | ⚓★ | 🌊 Normale | 🚫 Pas fait
Slippery gully, all meetings in order. Many are doubles with chain and free link, although they are starting to get old. (traduction alternative)

2024-08-24 | Inga | ★★★★★ | 📖★★★★ | ⚓★ | 🌊 Normale | 🟢 Terminé
Top water level, usually quite easy to walk in the active part, very slippery outside. Anchor old, but ok. Some fixed ropes could be replaced. (traduction alternative)

2023-06-25 | Nico Schneider | ★★★★★ | 📖★★★ | ⚓★★★ | 🌊 Normale | 🟢 Terminé
The creek is very slippery, but it should definitely be done if you are in the area. By far the most beautiful and continuous stream in the area. Picture of the water level is attached. The picture was taken at the water intake by the middle bridge. (traduction alternative)
