Résumé: (traduction alternative) Very aquatic; clean cold mountain water; only single pitons; beautiful partly slippery granite rock; emergency exit at the beginning and at the end; super high speed slide (20 m; be careful!); rather short canyons little used.		
Hydrologie:		
Accès: (traduction alternative) From Biasca ri Malvaglia/ Motto (Val di Blenio) --> at the 2nd entrance right into the village Malvaglia Chiesa --> in the village ri. North (several sleepers approx. 700m) to a fork (Pontirone) --> the steep mountain road over several Zerpen- tinenkurven up to a road fork (stone arch) --> here you follow the road course left, past the barrier and further up to the huge dam wall --> at the upper edge is a parking lot (approx. 990Hm).		
Approche: (traduction alternative) From the parking lot over the dam through the tunnel --> after the tunnel immediately 360° left up the trail --> over a bridge and past the house --> the entry is at the 2nd bridge (over the stream) at about 1135Hm.		
Tour: (traduction alternative) Immediately after the bridge you have the first rappel C20 (water level control) --> this place can also be bypassed right --> a cascade follows the right of the tree first R15 rappel and 4 m can be slid --> should be here already too much water, you can break off at the beginning --> now follow some jumps and slides which are to be enjoyed with caution --> the pools are crystal clear but you can't always see the depth because of the white water --> the canyon is a lot of fun especially for those who like jumping and sliding in an aquatic environment --> the highlight in the canyon is the 20m slide with flying descent (see topographic view --> after the big slide (resp. rappel) it goes mostly only descending with small jump and rappel places --> one has shortly after the slide the possibility to exit left or to go to the reservoir at the big funnel and exit left at the railing (ca.990Hm).		
Retour: (traduction alternative) From the trail back through the tunnel over the dam wall in a short time back to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Combra Some toboggan can't make it but if you check first most of them yes . (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2658/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Combra Canyon superbe! Très bonnes conditions, DC+. La T20 est démente, passe bien en mettant un bout de corde jusqu'à l'étréouiture ; marche aussi sans corde, mais faut pas zipper ! Automatisch importiert von Schlucht.ch für Canyon Val Combra, Wasserstand: "viel-machbar" Verankerungen: "ok" Um die grossen Rutschen voll auszukosten zu viel Wasser. Insgesamt aber managebarer Wasserstand, ohne CF oder RG machbar. (Quelle: <https://schlucht.ch/schluchten-der-schweiz-liste/1079-val-combra>)

Automatisch importiert von Schlucht.ch für Canyon Val Combra, Wasserstand: "Hoch" Verankerungen: "Gut" Wir sind zu 6 eingestiegen, mussten aber bereits den ersten Abseiler umgehen. Bei S8 und R8 entschieden wir, dass es nur mit Silbahn möglich wäre, umgingen die Stelle dann aber trotzdem. Vor T15 entschieden wir aber, dass es definitiv zu viel Wasser war und stiegen aus. Automatisch importiert von Descente-Canyon.com für Canyon Combra Fait a 4 en DC+, le tobogan de 20m poussait quand meme pas mal. Tres joli canyon moins parcouru que les majeurs mais sympa et ludique. (Quelle:
