| <b>Résumé:</b> (traduction alternative)<br>Worthwhile little vertical open lime canyon; many small slides and steps; in good weather and suitable water level suitable for children or beginners; several exit options; mostly single pitons or glued anchors (with Bauhaus links); emergency drill kit recommended; some hidden stones in the pool; in sunshine beautiful yellow/green shimmering pools; poor cell phone reception.   |   |   |
| <b>Hydrologie:</b>   |   |   |
| <b>Accès:</b> (traduction alternative)<br>approx. 15min<br>From Mondsee drive in the direction of Unterach/Bad Ischl. Then turn right in the direction of Weißenbach am Attersee. After the camping site in Weißbach turn right towards Bad Ischl and follow the B153 to Km 6,2. Either park immediately on the right in the forest road next to the bike path (little space) or continue for about 100m and park at the large parking lot to the left of the main road.   |   |   |
| <b>Approche:</b> (traduction alternative)<br>approx. 25-30min<br>First follow the overgrown forest road that leads directly into the sparse forest at km 6.2. After a short time, the forest road turns into a path that now leads more steeply uphill through the forest and after a few meters of altitude again meets the old forest road. From here you follow the old forest road with only a slight incline (resembles in part rather an overgrown path) which after about 15min meets a new forest road (large open area). The new forest road is followed to the right only a short distance to the entry at about 740m down (does not matter much but the Hinterer Stehrergraben entry is not before but after the bend!)   |   |   |
| <b>Tour:</b> (traduction alternative)<br>approx. 2-2,5h<br>The Hinterer Stehrergraben with its open canyon character, many slides and small abseil steps is next to the Burggrabenklamm certainly one of the most rewarding beginner canyons in the Salzkammergut. Depending on the participant, weather and season, a 3mm neoprene may be sufficient. The canyoning tour is never boring as walking, slide, rappel and downclimb passages alternate well. A higher cascade in the middle of the canyon of about 16m can be bypassed via a fixed rope on the right. After a few slides follows another 16m step which after control from the middle is also gladly slid. After that, smaller walking, slide and downclimb passages follow before you finally come to the highest rappelling point (10m+20m), which is easy to see. After the last small 3m step (possibly jump) you leave the stream to the right at about 540m. |   |   |
| <b>Retour:</b> (traduction alternative)<br>approx. 5 min<br>Through the forest to the main road and right back to the parking lot.   |   |   |

All single bolt anchors - fine for children hopefully. Unless you're having a super good try, I'd expect 35min walking from the carpark - more with kids. Lots of novel little slides, and a few jumps for small humans too, provided they have good technique. Grippy rock, and the single bolts were at least in good condition

The pool by the 8-meter slide was only one meter deep, so it was better not to slide. (traduction alternative)

First rappel from the tree, otherwise well set up. Water level rather low. (traduction alternative)

2024-05-01 | Wolfgang | ★★☆☆ | 📖 | 📍★★ | 🌊 Normale | 👍 Terminé

Everything ok, pools rather shallow (traduction alternative)

2024-03-31 | Uschi | ★★☆☆ | 📖 | 📍★★ | 🌊 Normale | 👍 Terminé

All stands are ok so far, no significant changes compared to last year. (traduction alternative)

2023-06-21 | Fred | ★★☆☆ | 📖★★★ | 📍★★ | 🌊 Faible | 👍 Terminé

All stands so far ok, Due to the many wood and debris in the pools, the jumps are not and the slides are only conditionally feasible. Please park in the large parking lot and not on the bike / walking path. No cell phone reception from the parking lot. (traduction alternative)

2023-05-07 | Uschi | ★★☆☆ | 📖★★★ | 📍★★ | 🌊 Normale | 👍 Terminé

most of the pools are relatively shallow (traduction alternative)
