Spécialités:		
Matériel: Cordes: 2x25m		
Résumé: (traduction alternative) Aesthetic canyon, dry already from spring; with flow. Water tip (best May/June). Water level: http://canyoning.pirineos-pyrenees.eu/barranco/1		
Hydrologie: Pegel: http://canyoning.pirineos-pyrenees.eu/barranco/1		
Accès: (traduction alternative) We come from Jaca on the N-240 and drive westward via Puente La Reina de Jaca and past Berdun in the direction of Pamplona. After 33.3 km (from Jaca) and 300m before the start of the new (2015) section of the A-21 freeway, we turn right onto the road that heads north towards Villareal de la Canal, Majones and Fago. We always drive along the river and after 14.3 km (from N-240) we come to a dirt road coming from the lower right (our exit path). Here we park the lower car. The place is located on the road, which immediately before has driven out a prominent corner in western direction and now begins to rise. If you come from the opposite direction (from the village of Fago), you will find this place 4.6 km south of Fago (counting from the bridge over the creek at the southern exit of the village). With the second car we continue north high above the canyon and after 1.8 km (from the lower parking lot) we reach a bridge over the creek coming from the village of Fago. Immediately after the bridge is a large parking lot where we park our car for the entry. This parking lot is located 2.8 km south of the village of Fago (counting from the bridge at the southern end of the village).		
Approche: (traduction alternative) After a short run entry.		
Tour: (traduction alternative) First flat terrain without gorge, possible jumps. Then gorge. impressive siphon. Approx. 3 m diving section in the previous stream direction with a touch to the left, dark behind), on a "Ferrata" the siphon can be bypassed. Natural bridges. Running tracks. We finally meet a rock bar across the stream with parallel layered slabs. Here, at a larger cairn, the exit is to the right.		
Retour: (traduction alternative) We take the path found here, which first runs parallel to the stream, later in a wide curve up to the road and the parking area for the lower car.		
Coordonnées: Départ du Canyon 42.7102 -0.8610 Fin du Canyon 42.6993 -0.8651 Parking à l'entrée 42.7109 -0.8617 Parking à la sortie 42.6989 -0.8675

Automatisch importiert von Descente-Canyon.com für Canyon Fago DC+, second canyon for the day, a very nice trip with great narrows, clear water and fun rappels and jumps. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21498/observations.html>)

2024-03-23 | Rok |★★★★☆|📖★★★★|📍★★★★|🌊Haut |👍 Terminé

Currently great water level. All stands tip top. Easily doable with 1 car, if you are motivated to run up (about 20 minutes jogging). All jumps doable. Siphon must be bypassed above and is secured with chains. A little gem when water runs through. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Fago Supers conditions, le siphon est sous l'eau et des embacles y sont présents. 1er rappel et tout le reste se saute, en sachant viser (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21498/observations.html>)
