Résumé: (traduction alternative) Steep rappel canyon in the Raccolana Valley that offers 19 rappels, little water and beautiful views of the Cimone.		
Hydrologie:		
Accès: (traduction alternative) Coming from Chiusaforte, enter the Raccolana valley in the direction of Sella Nevea. Follow the sign for Pezzzeit - just before the exit of the road parking on the left (GPS 46' 24' 0.38 - 13' 21' 23.64).		
Approche: (traduction alternative) At a white signpost, follow trail 633 uphill across meadows (initially only very indistinct tracks). At a statue of the Virgin Mary, cross a stream and climb initially in a westerly direction. After a left turn, the path soon leads into the canyon of Rio de lis Cladis. After about 40 minutes you cross the stream - entry point if you want to go only the lower part. \nFurther steep and in places secured with wire ropes up a crag before the path leads into a less steep beech forest. After the second flattening at about 960m above sea level (GPS 46.393583N, 13.362433) you descend without a path over steep forest to the right into the canyon.\nThe first rappel point is after a waterfall on the left side of the canyon (GPS 46' 23' 34.93 - 13' 21' 41.43).		
Tour: (traduction alternative) Rappel 5 meters and cross to the other side of the canyon where the next anchor (14m) is located. Until the intersection with the hiking trail there are 7 more rappels up to 20m (chain anchors). After the crossing with the path, the rappels become higher and the belays worse (2 expansion hooks each).\nRappel sequence: 10m, 6m, 25m, 20m, 5m, 33m, 10m. A 35m rappel with a high risk of falling rocks brings us to the mouth of a side stream (from here on the stream is called Rio Impresis). In Rio Impresis we go over a beautiful 43m waterfall into the depths before a last 5m rappel follows. After a short boulder hopping over giant pebbles, get off on the left via a path.		
Retour: (traduction alternative) Take the path back towards path 633, which you reach at the statue of the Virgin Mary.
