Résumé: (traduction alternative) Rappel canyon, without water flow in summer		
Hydrologie:		
Accès: (traduction alternative) We head north on the A-138 from Ainsa towards Bielsa. We pass through Labuerda and Escalona to reach the bridge over the Rio Yaga, where the Miraval canyon ends - 17 km from Ainsa, town center. We pass the hamlet of Hospital and 450 m after the bridge over the Rio Yaga we turn left uphill at an acute angle towards Tella, Revilla. We drive steadily uphill, leaving the turnoff to Tella on the right after 5.7 km. We continue towards Revilla and after another 4.9 km we come to a sharp right turn, at the left edge of which there is a large open space where we can park our car. From here it would be another 0.9 km to Revilla.		
Approche: (traduction alternative) From the parking lot, continue along the road to the hairpin bend. From the hairpin bend, take the path that leads roughly horizontally to the NNW and a few minutes later you will be at the streambed,		
Tour: (traduction alternative) 18 rappels, some Marmitas Trampas, the final rappel in the free slope down to the path that leads right to Escuin and the Garganta of the same name.		
Retour: (traduction alternative) After the aforementioned final abseil, turn left and up to the road and the car.

Melting snow with high but easily manageable water levels. All anchors available. Be careful when jumping, not all pools are clean and the white water hides obstacles. (traduction alternative)

Currently superiore water level, as the snow above is melting. Absolutely recommendable and the stands are very good. Almost always 2 anchors. We carried the tree trunks down on the last rappel, as they hang very dangerously on the edge. Has a bit of a Lodrino feeling in between. Top canyon when it has water. All the pools are full to the brim and no problem getting out. (traduction alternative)
