Résumé: (traduction alternative) Short but very beautiful canyon; clean water; limestone; unfortunately very much walked; almost in the entire course emergency exits; short access; 18m slide (?); rather open canyon; good alternative if other canyons too much water.		
Hydrologie:		
Accès: (traduction alternative) approx. 15min From the village of Bovec in a southerly direction along the main road towards Nova Gorica --> always to the right along the Soca --> after the village of Zaga but before Serpenica there is a large parking lot to the left and to the right opposite an inconspicuous gravel road into the forest --> follow this to the exit --> parking lot (380Hm).		
Approche: (traduction alternative) approx. 30min From the parking lot you can already see the last steps of the canyon 18m/2m/3m --> from here it goes up the signposted hiking trail --> you have again and again views into the canyon --> first keeping to the left it goes but then to the right over a stone wall --> following the signs to about 550Hm (larger flat forest floor area) --> here to the left follow the path ri. streambed and descend over steep boulder field with rope traverse to about 480Hm (entry).		
Tour: (traduction alternative) approx. 2h Arrived in the canyon it starts immediately with many small slides and pools --> the slides are max. 3m high and can be partly rappelled or bypassed --> because the canyon is walked a lot, fixed ropes were installed for bypasses --> in the whole canyon course there are entry and exit points --> the highest rappel point C25 left is in the middle part and secured with rope traverses (left. (left. Bypassing also possible) --> several small jumps and slides + rappel on fixed ropes follow --> in the lower part you meet the stone bridge already crossed at the access there is a 15m rappel point (right. After a few climbing passages you are in front of a large clamping block under which the water falls (C10 rappel or slide) (!!! If the water level is high!)) --> further downclimbing and a rappel with 18m announce the exit of the canyon (part of the 18m are also gladly rappelled, but is to be enjoyed with caution because the slide runs almost vertically, the pool is deep but very narrow) --> before the exit pool you have 2 jumps that you can also downclimb (slippery!).		
Retour: (traduction alternative) approx. 0min Exit directly at the parking lot at 370Hm.

We were the first group to start shortly before 8am - at the exit 1h 25 later the entire parking lot was full, so it pays to start early. Almost no gravel in the pools this year, we were actually able to jump/slide almost everything (despite a bit less water than normal), the rest had new fixed ropes. (traduction alternative)

Automatisch importiert von Descente-Canyon.com für Canyon Susec Canyon très sympa, eau assez chaude, équipement nickel. Le canyon peut se commencer plus haut que la description avec 2 cordes de 40m. Sur la marche d'approche, ne pas prendre le chemin des guides, continuez un chemin qui monte toujours en RG jusqu'à passer devant un petit hameau, le chemin redescend juste après et on arrive au départ (20 à 30min de marche en plus). Dans cette partie il y a une cascade d'une vingtaine de mètres, une de 10m environ puis une cascade d'environ 35mètres (on avait 2x40m). Cette partie n'est pas faite par les guides donc vous serez seul. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2703/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Susec Fait en soirée pour échapper à la foule (à 17h et quelques au parking, encore 18 véhicules de pros !). Jolie descente facile quand on est tout seuls ;) Suréquipé, il est possible de contourner les deux grandes (prévoir un gros 2*25m pour la première depuis le relais du haut). Bien vérifier les sauts/tob, tout ne passe pas ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2703/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Susec A very bussy canyon, but nice and easy to do. Jumps, slides, rappels. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2703/observations.html>)

beautiful fun canyon. All slides and pools had plenty of water. Fixed ropes, except for the last one, all looked very new. (traduction alternative)

very heavily commercialized. höllen-rutche to end rather with rope to make, pool zugekiest, 1m deep (traduction alternative)

Nice short canyon, I felt like in aquapark, several jumps and slides, but very commercial, it can took much longer when several groups before you in canyon.
