<b>Résumé:</b> (traduction alternative) Rappel canyon with difficult access and exit path		
<b>Hydrologie:</b>		
<b>Accès:</b> (traduction alternative) From Stanzach in the Lechtal (950 m above sea level) drive up the Namloser valley in the direction of Namlos, Rinnen, Berwang. After a good 6 km, a freight cable car crosses the Namlos stream to the other side of the slope (company building slightly below the road). Park your car here (1200 m above sea level).		
<b>Approche:</b> (traduction alternative) On the road bridge to the eastern bank of the stream that comes down in the Schwarzbrunnental. In the forest on the right edge of the brook 100 meters of altitude down to the Namloser Bach. At a trapped tree trunk change to the other bank of the Namloser Bach (there on rock ridge marker sign). Follow the path starting here upwards. At an indistinct fork keep left. At about 1250 m above sea level you come across a path that leads from Namlos to Stanzach. Follow this path to the left (west) under the Schretterhütte until you meet the stream coming down from the Dürrekopfspitze - entry (1250 m a.s.l.).		
<b>Tour:</b> (traduction alternative) A series of rappels, no slides or possible jumps. The Namloser Bach can cause problems when crossing at the exit. Therefore, one should go the tour only at low water. At low water you can also go the last rappel into the Namloser Bach keeping left over a small rock gate, through which the water stream shoots.		
<b>Retour:</b> (traduction alternative) Arrived in the Namlos stream on the opposite slope steeply up pathless. After the first 20 meters of altitude, keeping right, before the next cirque you meet a grassy edge, where you work your way up between mountain pines to the edge of the slope. From here, keep to the right (SW) and continue pathlessly up to the road and left to the car. Perhaps a little further down in the Namloser Bach the climb back up to the road is easier - would be to test if necessary.

## Rapports:

2023-09-02 | Max | ★★★★★ | 📖 ★ | 📍 ★ | 🌊 Normale | 👍 Terminé

The hook at the cascade of three is flat. 35 m single strand is enough to abseil over all three steps. The way back through the Namlosbach and up to the car was definitely the most difficult part of the tour. (traduction alternative)
