Pays: Italia / Italy Région: Lombardia Sous-région: Varese Ville: Pino		
Difficulté: un peu difficile	Niveau: v4 a4 IV	Temps total: 7h30
Temps approche: 15min	Temps tour: 7h	Temps de retour: 15min
Altitude d'entrée: 770m	Altitude de sortie: 195m	Altitude du delta: 575m
Longueur du canyon: 3500m	Rapelle le plus haut: 40m	Nombre de rappelles: 30
Transport:	Type de roche:	Zone de prise d'eau: km ²
Saison:	Orientation: Nord	Meilleur moment:
Évaluation: ★ 3.5 (1)	Info: ★ 0 ()	Belay: ★ 0 ()
Spécialités:		
Matériel:		
Résumé: (traduction alternative) Time-consuming, not unattractive forest canyon, repeated swimming passages and downclimb, rarely used		
Hydrologie:		
Accès: (traduction alternative) From Bellinzona we head for the eastern shore of Lake Maggiore. The approach is the same as the one to the lower parking lot during an ascent of Valle Vira (see there). Then, however, we continue along the lake shore to the Italian-Swiss border. Swiss border. About 150m after the border park the car either on the left on the old bridge over "our" brook or on the right at the "Restorante Bella Vita" (P0 - for approach see Google aerial photo in photo gallery)\n\nwith a second car we make a transfer up to the reservoir "Lago Delio". It goes through Macagno and Musignano (see Google aerial photo in photo gallery). Below the dam wall at the exit of the access road we park the second car (P2).\n\nIf we have only 1 car available, a parking lot in Bassano (P1 - 530m altitude) is a good choice. You can get there by turning left from the SS394 at an acute angle 2km after the border onto the SP58 (see Google aerial photo in photo gallery). Then it makes sense to plan an exit at the "Mulinaccio" (A1 - cf. way back).\n\nThe footpath up to the dam starts in Bassano with the signpost "Monti di Bassano" - "Lago d`Elio" (about 1h to the dam).		
Approche: (traduction alternative) From the parking lot at the dam (P2 - 915m altitude) around the water basin to the right and about 700m in an easterly direction. After crossing a small stream left (in a northerly direction) pathless down to Molinera (entry E).		
Tour: (traduction alternative) After a long run-up in the stream the first rappels; then many smaller steps, swimming pools, rappels again, Then a glacial pot with a hole, called "Buco della Vecchia" (hole of the old). It continues like this until (after about 20 rappels) the view falls on the ruins of an old mill ("Mulinaccio"); exit here on the left (A1 - if the car is in Bassano).\n\nnother 200 meters of altitude and about 10 rappels until the exit at the road bridge (A2).		
Retour: (traduction alternative) Intermediate exit to the left at the ruins of the old mill - "Mulinaccio" (390m altitude). From there path (white-red marking) to Bassano (25 min). So you "save" at least 10 rappel and almost 200m height.
