Résumé: (traduction alternative) Hiking and swim canyon with a rappel in the side climb		
Hydrologie:		
Accès: (traduction alternative) From Corte on the T(erritoriale)20 we drive about 16.5 km towards Ajaccio. Immediately before the new road bridge over the Vecchio (on the right the railroad bridge "Pont Eiffel") we turn right onto the D723, which leads us into the Verghello valley. After 350m we park our car for the exit where a hiking trail comes up from the left. 2,3 km further we reach the bridge over the Ravin de Quarceto. Here we park the 2nd car.		
Approche: (traduction alternative) To the left of the creek we descend a bit to the entry. Then the C20 is already waiting for us. This could be avoided with an access via the Bergerie de Piferini. To get to the bergiere we have to park the car about 500m before the bridge over the Quarceto. A road leads to the Bergerie, from there a path down into the stream (see IGN map).\n		
Tour: (traduction alternative) \n Further down the Quarceto we come to the watery Verghello. There follows a river walk with some possible jumps (including a "forced jump" of 6m) and several other small rappels.		
Retour: (traduction alternative) At a huge boulder in the streambed we can exit to the left on a hiking trail that crosses here, and thus come up to the road and the car.\n\nShould we miss the exit point, about 350m downstream the Vecchio awaits us. In this downstream we can soon see the bridges. After the old road bridge, clear tracks lead up to the right to the old road. Over the bridge to the other bank of the river and there pathless up to the D723, then left to the car.

Automatisch importiert von Descente-Canyon.com für Canyon Verghello ATTENTION : Départ du Canyon de Verghellu n'est pas du tout sur le point de la carte. Il se fait à la Bergerie de Puzzatello. Se garer sur le parking, puis retraverser le pont à pied et prendre le chemin a gauche du pont, qui monte le long de la rivière puis dans le maquis, pour finalement redescendre au départ du Canyon.
