Résumé: (traduction alternative) Open rappel canyon in tuff, good also for beginners.		
Hydrologie:		
Accès: (traduction alternative) Either from Ventimiglia on the SS 20 in the direction of Breil-sur-Roya, Tende, Cuneo and after about 12 km, immediately after a long tunnel turn right in the direction of Airole or coming from the north (Breil-sur-Roya) after 13 km (from Breil) immediately before the tunnel and the road bridge over the Roya turn left in the direction of Airole. We drive up at the first houses on the left into the village and park the car there.		
Approche: (traduction alternative) Marked in blue on the map "2". From the central square (church on the left and fountain in the center) in Airole, head east up the street (Via Garibaldi) with the stair-like flat steps (signposts "Rocchetta" and "Basse d'Abellio"). We are now on the "Sentiero 1" on the internet map. Soon, at the first signpost, we turn left (in the direction of Monte Abellio; to the right we would go to Valle Para), and a few meters later we turn right. We now follow the path uphill, marked with white-red markings. Passing a fountain, we come to the road to Fasceo, leaving it again after a few meters to the left (towards Monte Abellio) to climb steeply up to the small saddle ("Croce del Coletto"), from which we have a beautiful (back) view of Airole and the Roya Valley. We follow the path for about 250 meters, then we turn left onto a small path that runs horizontally along the slope. We walk on this path for about half an hour and then we come to the ruined houses of Case Sorvan (460 m a.s.l.). We pass the first ruined house and a few meters further we take a poorly visible trail to the left, which we follow downhill across the trees until we reach the stream (430 m a.s.l.). Folléas-Giminez describe an access always near the stream and enter about 130 m further down (300 m a.s.l.).		
Tour: (traduction alternative) Sequence of smaller rappels, some with possible jumps, running routes in between.		
Retour: (traduction alternative) At the height of a small dam with a large water reservoir below (ENEL), we climb out to the left on a meager path, meet another coming down from the left, and then meet a road that we follow into Airole. A further descent is not recommended because of the water intake and the somewhat stinky water from it.
