Résumé: (traduction alternative) Short rappel canyon		
Hydrologie:		
Accès: (traduction alternative) On the A-7 freeway, coming from France (Perpignan), leave it at the Figueres (Nord) exit and drive through the city on the N-260, in the direction of Olot, Ripoll. At Olot, turn onto the C-152, later C-153 in the direction of Vic. At first the road goes flat, later it rises sharply and after about 30 km (from Olot) you reach the turnoff (left = south) to Rupit. Before Rupit there is a large parking lot. Here turn right over the bridge (the river is the Rio or Riera de Rupit) and slowly descend on a dirt road (about 2 km) until you reach a large plateau on the left. If you do not have a four-wheel drive vehicle, it makes sense to park the car here.		
Approche: (traduction alternative) From the parking area, continue eastwards down the slope and soon you will be looking at a cauldron of imposing rocky outcrops ('Guilleries') up to 100 m high. You now cross the Rio de Rupit again - here begins the canyon Salt de Sallent de Rupit down to the right - and continue to follow the slope until a path on the right leads down to the entry into the Gravet. A little later you reach the streambed of the Ravet with the first rappel point.		
Tour: (traduction alternative) Short canyon with a beautiful 30 m rappel (5 rappels in total) in a magnificent setting. If at the beginning Wsser flows, it may soon seep.		
Retour: (traduction alternative) After the last rappel point with a larger pool, work your way down through boulders for another 50 m until you meet a path that crosses the stream (cairn on a larger boulder). Follow the path to the right (westwards) and continue along it under the rock walls until the entire path clearly leads upwards in serpentine to the plateau (approx. 25 min. to here). From here in about 10 min. back to the car.

All levels ok. At the beginning water flow, which then fails in the course of the descent. The way up is a real clear climb, so do not follow any tracks prematurely right up! (traduction alternative)
