Résumé: (traduction alternative)
River walk that becomes increasingly attractive as it progresses and opens up some possible jumps.

Accès: (traduction alternative)
From Kas we take the state road 400 in the direction of Antalya. After about 7 km, just before reaching the village of Agilli, we turn left from the 400 at a sharp angle, towards Orttakuyu and the ancient city of Phellos (brown sign). After about 1 km, a small tarred road turns off to the right in a northerly direction (towards Pinarbasi). We pass through Pinarbasi and reach the high ground about 7 km after turning off the 400. Now we go downhill for another 3 km and drive through Dereköy. 50 m after the mosque on the right side we come to the bridge over the Hacioglan. Here we park the lower vehicle.\n\nWith the second one we continue along the orographic left bank of the Hacioglan and 6 km after Dereköy we come to Ugrar. We keep left here and turn left a little further north towards Sinneli. We pass through a small settlement (Cataoluk) on the western edge, turn left before Sinneli and the new road takes us to the northern slope high above the Hacioglan River. After a good 8 kilometers we turn left down from the new road, now we reach the scattered settlement of the same name (about 25 km from Dereköy) and drive down to the river. At the bridge we park the second car.

Approche: (traduction alternative)
We now follow the track along the orographic right bank of the stream downhill in an easterly direction. Where the track turns away from the stream and begins to climb, we take the forest path to the left and always follow the stream. Several crossings of the stream follow, the path becomes a goat track and finally gets lost. Then we come to the first narrow section between solid rock and a longer swim. Here begins the actual canyoning route.

Tour: (traduction alternative)
Also a lot of walking after the first swim, but in the last third attractive ambience with some possible jumps.

Retour: (traduction alternative)
After crossing the final rock bar, follow the stream to the road bridge. About 200m before the bridge you can already go out to the right on a dirt road.
