Pays: Schweiz / Switzerland Région: Kanton Tessin / Cantone Ticino Sous-région: Bezirk Riviera Ville: Osogna		
Difficulté: un peu difficile	Niveau: v4 a3 III	Temps total: 6h15
Temps approche: 2h15	Temps tour: 3h	Temps de retour: 1h
Altitude d'entrée: 1015m	Altitude de sortie: 835m	Altitude du delta: 180m
Longueur du canyon: 750m	Rapelle le plus haut: 35m	Nombre de rapelles: 10
Transport: à pied	Type de roche: granite	Zone de prise d'eau: km ²
Saison: juin - septembre	Orientation: Ouest	Meilleur moment: 9-12 Heures
Évaluation: ★ 3.7 (5)	Info: ★ 2.5 (4)	Belay: ★ 2.5 (4)
Spécialités: Barrage (informer l'exploitant), Barrage (chasse d'eau automatique),		
Matériel: Cordes: 2x 35m		
Résumé: (traduction alternative) Some nice shorter rappels, huge slides and technical jumps.		
Hydrologie: (traduction alternative) If necessary, water supply from the interconnected reservoir canal leading to the power plant (automatic opening of the sluice in case of problems in the canal or in the power plant, as in the case of the accident in 2001: https://www.nzz.ch/article7KF2C-ld.179745).		
Accès: (traduction alternative) From the freeway junction north of Bellinzona take the N2 towards Biasca. Passing through Claro and Cresciano we reach Osogna (11.4 km from the highway to the bridge over the Nala). After the bridge over the Nala, drive up to the cemetery and leave the car there.		
Approche: (traduction alternative) On foot: Walk along the road above the parking lot towards the river and descend to the large terminal basin. Check the water flow, then cross the riverbed to the south and hike along the narrow mountain road to the start of the path to Pönt and Valle di Osogna. After the steep ascent to Pönt, the path becomes flatter and then enters the Valle di Osogna. From bridge 839, the path climbs again. At stone bridge 950, carefully check the water level in the basin below (this can become a trap). Climb the steep steps and at 1060 meters take the less visible path on your left down into the valley to the river and the outlet of the diversion channel. Helicopter: From the helipad, first go up to the houses I Cassin di Carli. There we take the hiking trail to the right. After the last houses, the path descends along a ridge. At an altitude of 1060m, we take the not very clearly recognizable path to the right. It leads us down to the entry at the outlet of the drainage channel.		
Tour: (traduction alternative) The upper part starts after the water intake and accordingly carries little water. The water is generally quite cold. Many slides that need to be well checked out. There are also some possible jumps.		
Retour: (traduction alternative) Either get off at the bridge and go back down the access path or continue in the Nala Intermedio (see there).

Rapports:

2024-09-25 | Bavarian Canyoning | ★★★★★ | 📖 | 📌 | ⚓★★★★ | 🌊 Normale | 🟢 Terminé

We entered the canyon by helicopter shortly after the water intake. There are several obstructions in the superioere, but these can be easily negotiated. The rock was very slippery and the anchors were in good condition. (traduction alternative)

2024-09-14 | System User | 📖 | 📌 | 🌊 Faible | 🟢 Terminé

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (supérieur) Très joli enchaînement. La partie supérieure me paraît plus intéressante que l'intermédiaire. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22493/observations.html>)

2024-09-04 | Bibtore | ★★★★★ | 📖★★★★ | 📌★★★★ | ⚓★★★★ | 🌊 Faible | 🟢 Terminé

We started at A Merisciöu at 1270m (so the whole tour is 1000m). There are a few nice single sections before the water catchment, but overall quite flat, and above all a lot of tree trunks. It took the three of us just under 7 hours to get down to Osogna, and we slid pretty much everything that could slide. (traduction alternative)

2024-08-27 | Massimo Loriato | ★★★★★ | 📖★★★★ | 📌★★★★ | ⚓★★★★ | 🌊 Normale | 🟢 Terminé

2h15 approach on foot to superioere, 6h30 tour for superioere + intermedio + inferiore in a group of 7. Water level normal without any problem, superioere with low flow as usual but with cristal clear pools and lot of water entering from the tributary right after the first stone bridge; all jumps and toboggans doable. All anchor points in order, in superioere and intermedio many are single.

2024-08-24 | System User | 📖 | 📌 | 🌊 Faible | 🟢 Terminé

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (supérieur) Partie supérieure très inintéressante mise à part l'approche en Hélicoptère ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22493/observations.html>)

2024-08-24 | System User | 📖 | 📌 | 🌊 Normale | 🟢 Terminé

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (supérieur) Nul nul nulAucun intérêt pour le sup, fait un hélico aujourd'hui (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22493/observations.html>)

2024-08-17 | System User | 📖 | 📌 | 🌊 Faible | 🛑 Pas fait
