Automatisch importiert von Descente-Canyon.com für Canyon Rio Stuet Parcouru après Ciorosolin, sympa, la faille est superbe et tout s'enchaîne. Belle découverte.... (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/23026/observations.html>)

Nice canyon. Convenient approach on the hiking trail. Interesting geology. Well equipped. At least 15 breaks installed, several of which can be climbed down. (traduction alternative)

Everything ok, high water level but no problems (traduction alternative)

Tour breve, semplice e bello, parecchie disarrampicate, nessun tuffo possibile

The mix of anchors all ok, one of the last ones is a chain behind the corner a step down from the old 2 spits with rope (best not to miss the chain obviously) flow still considerable for the time of year. Done after Ciol del Pes (traduction alternative)

Nice rather short tour. Everything ok here. We have not consciously counted the number of rappels , but were certainly more than 10 (traduction alternative)

Very beautiful canyon, well combined with Col del Pes and Ciorosolin. All the stands in perfect condition. Geologically very interesting because of the beautiful limestone strata. But also such a must-do. Partly very narrow cut and beautiful passages. We were a very good team and were in 1.5h car-car through. (traduction alternative)
