<b>Résumé:</b> (traduction alternative) 3 high cascades		
<b>Hydrologie:</b>		
<b>Accès:</b> (traduction alternative) From Varese on the SS394 heading WNW, after 17 km and about 20 minutes you reach Cittiglio. The first place to go is the center of the village and from there head north, following the signs for "Parco delle Cascate". You park at the exit of this access road. More space, however, would be in the Piazza degli Alpini, which is just east of the inner city. If you have a second car, take it back to the center of town and from there take SP 8 up the orographic left slope of the watercourse in the direction of Vararo. About 3.5 km from the center, the road reaches the stream near a restored mill. Park the second car here.		
<b>Approche:</b> (traduction alternative) In the streambed or initially on the right above to the first steps. If you have only 1 car available, then you can also climb on a footpath, last across the driveway on the eastern edge of the watercourse to the entry to the top waterfall (about 50 min).		
<b>Tour:</b> (traduction alternative) A succession of three large waterfalls, some of which have several levels, which can also be connected by using the hiking trails there.		
<b>Retour:</b> (traduction alternative) After the third large cascade on the footpath, then on the road to the lower car.
