Résumé: (traduction alternative) Aquatic fun canyon with attractive ambience		
Hydrologie:		
Accès: (traduction alternative) From the prominent road junction on the northeastern shore of Lago di Como, take the SS 38 up the Valtellina (valley of the Adda) towards Sondrio. After 15 km we pass the center of Morbegno. After another 6.8 km, and immediately after crossing the Adda, we turn left onto the SS 404, which, after passing through the village of Masino, takes us into Val Masino (towards Cataeggio, San Martino). 3.5 km after leaving the SS 38, the road to Bivio turns off to the right. A good 300 m further on, a dirt road leads down to the left to Torrente Masino, a little later there is a small chapel on the side of the road. Since the way back is via this dirt road, park the car here in a suitable place.		
Approche: (traduction alternative) We walk on the road for 1200 m and then we can descend to the left into the riverbed. After 150 m downstream we come to the slide brake, where the entry (orographic. right).		
Tour: (traduction alternative) After a short downclimb, a first jump is offered. After a swim, climb onto a wide rock slab (to the right of the gulch where the water thunders down). This slab can be rappelled down to the next jump into the pool below the waterfall (in case you don't want to do this, you can also rappel down the almost 20 m). Take the following slide a little to the right of the center of the current (in the left part there is a small cave). Now follows an optional siphon, several jumps and walking with downclimb in the riverbed.		
Retour: (traduction alternative) As soon as we see a granite quarry on the left in the now completely open riverbed, we go out on clear tracks to the left and then come to the dirt road that leads us up to SS 404 and the car.
