<b>Résumé:</b> (traduction alternative) Hiking and swim canyon		
<b>Hydrologie:</b>		
<b>Accès:</b> (traduction alternative) From Muscat about 160 km on the highway "17" in the direction of Sur (south). At the exit Tiwi - a few hundred meters before we have already crossed the Wadi Shab - we leave the highway and drive along the sea in the opposite direction until we can park our car at the Wadi.		
<b>Approche:</b> (traduction alternative) To reach the path on the other bank, we either let ourselves be transported across by boat or wade through the river, which is not very deep here, but muddy.		
<b>Tour:</b> (traduction alternative) On the orographic left bank a path leads into the canyon. After the first change of direction of the river we can either continue in the riverbed or follow the path that leads up the orographic left slope. On this path we come after about 80 min. to an abandoned village. Here you enter the riverbed and follow it downhill. You come to a small precipice, at the foot of which there is a pool covered by rocks. Through a narrow and low chute in the rock you come out of the pool downstream. You can also walk upstream in the streambed and then swim into this pool from below, climb out to the top (fixed rope - 2016) and continue hiking up the river as you wish.		
<b>Retour:</b> (traduction alternative) Down the riverbed. Arriving again at the highway bridge, we change banks again and are back at the car.

Nice tour for a rest/travel day. Crossing the small lake under the highway bridge cost 1 OR per person. Lots of tourists in the gorge, but above the cave basin you are on your own. (traduction alternative)
