Résumé: (traduction alternative) River walk with downclimbing		
Hydrologie:		
Accès: (traduction alternative) From Bad Tölz via Lengries to Sylvensteinspeicher. 200 meters after the bridge over the lake - approx. 100 meters before the signposted turn-off to Fall - turn left, continue straight on through the forest to the hiking parking lot for the Bächental to the left of the road.		
Approche: (traduction alternative) Continuing along the forest road, we pass the barrier and head towards the bridge over the Dürrach: after 1150 m and 250 m before reaching the bridge over the Dürrach, we turn off onto a half-right track in the direction of the Tölzer Hütte. We follow the forest road for almost 3 km. Then the road takes a sharp bend to the right uphill, but we keep straight on here. After another 600 m, a dirt road turns off to the right to a mountain pasture (4.7 km from the car). Here we descend to the left to the streambed.		
Tour: (traduction alternative) Running sections are interrupted by smaller steps. The ropes are used repeatedly (see photos). Shortly before reaching the small steps that lead down into the Dürrach, there is an exit option to the left at a wooden footbridge. The path reached here leads directly back to the parking lot. If you descend into the Dürrach, after about 1 km you come under the road bridge leading high above the Dürrach. This is where the tour exits.		
Retour: (traduction alternative) After the bridge on the left at the edge of the forest, we take the dirt road, which leads us in a wide left turn to the forest road. Follow this back to the parking lot.
