Résumé: (traduction alternative) A 100 m - rappel with "run-up".		
Hydrologie:		
Accès: (traduction alternative) Like Froda superiore: From Luino, on the eastern shore of Lake Maggiore, we take SP 69 to Castello Castellveciana (9.4 km). We leave this road here to the left on SP 7 - Via Galileo Galilei - in the direction of Nazca, Sant'Antonio, Arcumeggia. We now drive 1.9 km and come to a house directly on the right side of the road. 200m further on SP 7, a dirt road turns off to the right (http://www.valganna.info/phpBB3/download/file.php?id=5455&sid=f863e4b82142828d13c5222d5645bee5&mode=view) . Here we park the lower car. \nWith the second car on the SP 7 in the southern direction further continuously uphill. We can look at the 100 m high final waterfall of Froda inferiore and after 2,7 km we come to a prominent left serpentine. Here we park the second car, if we do not intend an integral ascent of the Froda (cf. description to the Froda superiore!).		
Approche: (traduction alternative) In the haipin bend a footpath goes off in western direction into the forest. we follow it and in about 5 min. we come to a footbridge (entry).		
Tour: (traduction alternative) First downclimb and smaller rappel, until you reach the break-off edge with the 100 m - waterfall. It is set up on the orographic. right side with several intermediate stands.		
Retour: (traduction alternative) At the foot of the waterfall we come to a wooden footbridge. Here on the left, on the trail, we soon pass the houses of the hamlet of Casone Froda (394 m a.s.l.), continue on the trail in a northerly direction, cross the river twice and, after the third crossing and another 600 m in a northerly direction, we reach the SP 7 and our lower car.

Mega beautiful rappel canyon. All stands tiptop. Make sure the rope runs well, especially on the last rappel - sharp edges! (traduction alternative)

2024-06-02 | Peter | ★★★★★ | 📖★★★ | 📍★★★ | 🌊 Normale | 🚫 Pas fait

Everything in the normal range. A few pools still silted up. Traversed to above the final waterfall and then exited. (traduction alternative)

Sup. and inf. committed. Only at the beginning a run, then continuously downhill. Abseil follows abseil. If the water level is uncomfortable at the big cascade, as it was during our ascent, the dry but green belay is recommended. <https://canyon.li/froda-18-05-23/> (traduction alternative)
