<b>Accesso:</b> (traduzione alternativa) First to the upper parking lot for the access to the Kobelache (see there); then further up the forest road along the Kobelache. We cross its streambed 3 times. Immediately before the 4th bridge (approx. 1.5 km from the Kobelache parking lot) we take the track branching off to the left (eastward). Again we cross streams 2 times (the 2nd time in a sharp left turn). From our forest road, which now leads uphill in a northerly direction, we can see the Kobelalpe, which is located on the left below, and shortly afterwards we reach a small plateau in a right-hand bend. Here we can park the car.		
<b>Avvicinamento:</b> (traduzione alternativa) From the aforementioned right turn, we follow the forest road for about 40m in an easterly direction before we descend pathlessly to the left (northwards) into the streambed of the Rudach.		
<b>Giro:</b> (traduzione alternativa) After a few meters in the streambed follow some smaller steps (at the first step, which can also be downclimbed, anchor somewhat hidden in a downstream bulge), before we reach a higher drop (about 40m). We rappel this in two parts. A rappel of about 20m follows; if you rappel over the trapped root stump, you can largely stay out of the stream. After another rappel (ca.14m) we take the handrail to the belaystation above the C64. In this wall, which is now below us, there has already been an intermediate stand, but one should not rely on it, since the rappel (in fall line) lays in the catchment area of the rappel (albeit at its edge) when the spring flood thunders down.		
<b>Ritorno:</b> (traduzione alternativa) After the final high waterfall in a wide arc pathless uphill in a westerly direction. A few meters below the ridge we reach a hiking trail that leads us along the edge of the large meadow, past the Kobelalpe, up to the parked car.
