Sintesi: (traduzione alternativa) Simply a great canyon! Narrow, deep, beautiful rock. There is only one prominent rappel in the canyon, about 15m. Everything else can be downclimbed and jumped. There are also stands in between if you are not sure about downclimbing. In my opinion, this canyon is an absolute must in the region.		
Idrologia:		
Accesso: (traduzione alternativa) Coming from Ampezzo, drive towards Sauris. Park at the first prominent leftward hairpin bend. (50m further on there is a superiore parking lot, if you don't feel comfortable in the hairpin bends). It is about 3km from Ampezzo.		
Avvicinamento: (traduzione alternativa) From the parking exit, continue in the direction of Sauris, drive through the tunnels and after a few bends (approx. 1-2 km) you will find a small parking lot on the right-hand side with a signpost on a wooden pole. Park here, the path leads directly from here down to the canyon in about 10 minutes. At a steel bridge, the path goes off to the left immediately afterwards and you are in the canyon in 2 minutes.		
Giro: (traduzione alternativa) In the canyon itself there is only one prominent rappel of about 15m, everything else can be downclimbed or jumped. For those who don't feel so comfortable downclimbing, there are always stands to belay from.\n		
Ritorno: (traduzione alternativa) After a series of waterfalls cascade into the canyon from the left and trees grow in from the right, watch out for a cairn on a large stone. The path goes slightly diagonally away and is marked in white and blue. Return to the car in 10 minutes.

Grandiose scenery! Superiore! When describing the exit, you can actually ignore the reference to "trees growing in" and cascading waterfalls and primarily follow the path through the cairn on large rocks. Unfortunately, the blue marking (small) is painted on the back of a small boulder. Telephone information at the dam worked. (traduzione alternativa)

Super deep and beautiful canyon! A fair bit of rubbish where it can cling on to pieces of wood or between rocks ☐☐ Very easy walk in and out, and beers available between!

Wonderful tour with sensational oscuros! :) Even the view from the bridge at the access point is impressive! The water level is just right, and the lock keeper gave the okay with a few chunks of English that there would be no flushing today. The only stand is a little exposed, better reached with a traverse rope. The positioning makes sense, however, as it is easy to get down next to the stream. Further on there is a slide in which unfortunately there is a huge block in the runout. the downclimb was a bit bad, but not tragic. In general, there were a few places that would probably have an anchor in other tours. Generally a super impressive gorge, and a clear recommendation if you want to know the most beautiful tours in Friuli! (traduzione alternativa)

I contacted the dam employee and he told that not too much water in the canyon, but other canyons in Friuli have too much water. Water level was fine at the beginning, but a lot of small waterfalls from the canyon walls caused little higher water level from the middle, but we enjoyed this aquatic conditions so much.

Automatisch importiert von Descente-Canyon.com für Canyon Lumiei Cold water but not nearly as cold as Novarzza. Really great conditions. No gravel, white rock due to the high water events in the last month and all jumps possible (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21725/observations.html>)

Everything is tip top. Lots of cold water at the moment. Very beautiful canyon, little action, but incredibly great photo spots when the light is right. (traduzione alternativa)
