Paese: Schweiz / Switzerland Regione: Kanton Schwyz Sottoregione: Bezirk Schwyz Città: Hinterthal		
Difficoltà: difficile	Grado: v4 a5 IV	Tempo totale: 4h15
Tempo avvicinamento: 5min	Tempo giaro: 4h	Tempo ritorno: 10min
Altitudine di entrata: 910m	Altitudine di uscita: 630m	Altitudine delta: 280m
Lunghezza del canyon: 800m	Rapel più alto: 24m	Quantità rapelli: 28
Transporto: Auto necessaria	Tipo di roccia:	Area di ingresso: km ²
Stagione:	Orientamento: Nord	Tempo migliore:
Valutazione: ★ 4 (6)	Info: ★ 2.3 (3)	Belay: ★ 2.3 (4)
Specialità:		
Attrezzatura: Corde: 3x30m		
Sintesi: (traduzione alternativa) Aquatic rappel canyon; cold water with mostly great force; beautiful formations; relatively narrow, no high side walls, but still only one emergency exit possible in each of the upper and lower parts; but exit and access possible at the road bridge that spans the canyon approximately in the middle (710m above sea level). Lower section easier (here highest rappel 18m).		
Idrologia:		
Accesso: (traduzione alternativa) From the village of Schwyz (in the canton of the same name) to the east of Lake Lucerne, we ride uphill along the Muota to Muotathal. We cross the village and reach the district of Hinterthal at its exit. Here the road bends sharply to the left and crosses the Muota. However, we drive straight ahead before the bridge (an inn on the left-hand side of the stream) and park the lower car in a suitable place. With the second car, we turn right at the inn in the direction of "Hürital". The steeply ascending road crosses the Hüribach at 730m above sea level, continues uphill in a long serpentine to cross the Hüribach again. Park the second car here. If you only have 1 car available, take the hiking trail that leads up the orographic right side of the Hüribach (approx. 1 hour).		
Avvicinamento: (traduzione alternativa) Directly from the bridge.		
Giro: (traduzione alternativa) The jump pools shown in the topographic view may be gravelled, so check carefully! After the spring floods, anchors may also be damaged or knocked out. However, it can also happen that (as in the Zanaibach, for example) rocks under the anchor are washed away and the anchor is no longer accessible or only accessible with difficulty. The time given for the descent in the canyon can be reduced to about 2.5 hours depending on the water level.		
Ritorno: (traduzione alternativa) Before reaching the houses, turn right and cross the meadow to the car below.		
Coordinate: Fine del canyon 46.9713 8.7728 Inizio del canyon 46.9637 8.7736 Parcheggio all'entrata 46.9637 8.7734 Parcheggio in uscita 46.9731 8.7737 Uscita intermedia del canyon 46.9686 8.7739

Automatisch importiert von Descente-Canyon.com für Canyon Hüribach L'équipement est devenu vraiment limite! mérite un rééquipement (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21334/observations.html>)

Automatisch importiert von Schlucht.ch für Canyon Hüribach, Wasserstand: "Debit correct" Verankerungen: "Alt, aber i.O." Teilweise super rutschig zu gehen und überraschend kalt (Quelle: <https://schlucht.ch/schluchten-der-schweiz-liste/1055-hueribach>)

Automatisch importiert von Descente-Canyon.com für Canyon Hüribach Amarages correct, souvent en double avec chaine. Parfois caché sous la mousse ;-). Dans la partie inférieure au C9 (?) il y a un qui est presque inaccessible (RD, en haut, grimpe risqué sur une crête, positionné dans un creux derrière la crête) qu'on devrait placer ailleurs. Assez glissant, surtout hors de l'eau. Sinon, magnifique canyon! Contact très gentil avec la centrale électrique. Demandez qu'ils arrêtent le mécanisme automatique. Attention: pour le parking amont ne laissez pas les voitures directement au pont. L'espace libre à côté de la rue est nécessaire pour la circulation (l'esquive). Il y a une grande place (bûcherons) 200 m plus haut à gauche. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21334/observations.html>)

Slippery gully, all meetings in order. Many are doubles with chain and free link, although they are starting to get old. (traduzione alternativa)

Top water level, usually quite easy to walk in the active part, very slippery outside. Anchor old, but ok. Some fixed ropes could be replaced. (traduzione alternativa)

The creek is very slippery, but it should definitely be done if you are in the area. By far the most beautiful and continuous stream in the area. Picture of the water level is attached. The picture was taken at the water intake by the middle bridge. (traduzione alternativa)
