Sintesi: (traduzione alternativa) The canyon part starts with a 25 meter rappel from a bridge. Alternatively, you can also enter the stream further up. There are still a few uninteresting abseils here. The start from the bridge is the highlight of the upper section. The canyon is largely open and an exit is possible at almost any time. Narrow sections can usually be avoided.

Accesso: (traduzione alternativa) From the highway Bregenz - Feldkirch take the exit "Klaus" (next exit after "Götzis"), then right (!) to the traffic circle, here 90 degrees to the left and in southern direction parallel to the highway about 1 km. Follow the signs to Dafins on the left. Pass under the highway, cross the main road 190 after about 2.5 km and continue in an easterly direction through the village area between Röthis and Sulz. Continue up to Dafins and through the village. Turn right before the next leftward hairpin bend (bus stop) and follow the road for a few hundred meters until you reach a sharp bend to the right (woodpile / greenery 2022).		
Avvicinamento: (traduzione alternativa) From the greenery/wood storage area, follow the road uphill to the next sharp leftward hairpin bend. There we take the footpath that branches off at the apex of the hairpin bend and follow it until we come across a small stream. At this point, take the left-hand path downhill to the stream. The entry point is the Osang bridge.		
Giro: (traduzione alternativa) The highlight of the upper parts is the first rappel from the bridge (alternatively, you can continue up the stream without a route. There are still a few interesting abseils here. If you follow the stream from the bridge, there are a few low abseils, some of which can be downclimbed. In most cases, you can rappel next to the water or bypass the rappels.		
Ritorno: (traduzione alternativa) You can get off at the bridge before the c50 on the right up to Morsch. After a short ascent, you first reach a fountain, then a small cluster of houses. From here, follow the road to the parking lot.
