Specialità:		
Attrezzatura: Corde: 2x20m		
Sintesi: (traduzione alternativa) Gorge hike with smaller rappels and a "key passage".		
Idrologia:		
Accesso: (traduzione alternativa) On the Inntal freeway A 93 direction Kiefersfelden/Kufstein. Exit Kiefersfelden, after a good 1.2 km turn left at the T-junction (direction town center and Kufstein) and after 450 m on Rosenheimer Straße turn right at the next traffic light into Thierseestraße. Now drive 3.1 kilometers (from the traffic lights) - narrow-gauge tracks alternately accompany the road - until a road branches off to the right up to Breitenau. Here we go up to the right, past the farmhouses on the left, the tarred road becomes a dirt road, on the left below is the Schopperalm and we stop at a fork in the road, 2.7 km from the fork in the road. At the fork we see yellow signposts ("Rechenau" or Hintere Gießenbachklamm"). Here we park the vehicle.		
Avvicinamento: (traduzione alternativa) An indistinct track leads down through the forest in a westerly direction to the wide gravel bed and the slide brake at the beginning of the gorge.		
Giro: (traduzione alternativa) Entering below the slide brake, after a few slides, you soon come to the key section of this gorge. First you rappel twice, each time a few meters into whirling pools, and then on the next rappel you have to try to rappel under the surge, crouched flat against the rock, and not be pushed into the corner ("Gscheier Loch").		
Ritorno: (traduzione alternativa) After the gorge has opened, turn left onto a forest road. This would bring us to the Schopper Alm, but we cross at the latest on the open meadow area pathless or on unclear tracks up to the forest road. Here to the left a few hundred meters to the car. Alternatively, below the Schopper Alm a continuation of the tour in the Vordere Gießenbachklamm is possible.

Anchors in good condition, great tour. Waterlevel at 2,5 m³/s @Bleyerbrücke (Kieferbach). At the upper end of "normal" waterlevel, but no problems.

Well secured with chain stalls, partly right and left! No jump or slide possible because pool full of debris.
