Specialità:

Attrezzatura:

Corde: 2x30m

Sintesi: (traduzione alternativa)

Open ditch with steep and partly rocky flanks. Long walking passages with many downclimb passages. Hardly any jumps or slides. Attractive the central drop with beautiful views.

Idrologia:

Accesso: (traduzione alternativa)

We leave the A 8 (Munich-Salzburg) via the Holzkirchen exit. After 17 km on the B 318 in southern direction we reach Gmund. We can now continue on the B 318 along the western shore of Lake Tegernsee via Bad Wiessee or on the B 307 along the eastern shore to Reitrein, where the two roads merge again (about 10 km from Gmund). Now continue south on the B 307 via Kreuth. Passing Wildbad Kreuth, we turn left after 4.7 km (from Kreuth) to a large parking lot for hikers (with a house). Here we park the car (daily fee 3 euros - 2014). A second car we can park for the exit 1.7 km further on the B 307 left of the road on the grounds of the Firstalm (Wednesday day off).

Avvicinamento: (traduzione alternativa)

From the parking lot we cross the Weißach and follow the forest road on the far bank in the direction of Firstalm (natural toboggan run in winter). After about 2.3 km in the forest we reach the meadows on the plateau (1100m above sea level). After another 1250 m of trail there is a saddle on the righthand side. However, we follow the forest road for about 150 m further in the direction of Königsalm ((SO), then we turn right from the road and continue in the direction of SSW pathlessly across the meadows towards the saddle under the Platteneck. Here we meet a bathtub, which is filled by a spring. To the right of the tub down into the side ditch of the Plattengraben and beyond a few meters up to a path that leads us down into the streambed of the Plattengraben.

Giro: (traduzione alternativa)

After a few meters we come to the first rappel sequence (4 rappels, each max. 10m). Then follows a run of approximately half an hour, until we come to the entry in the central drop (beautiful view of Ross- and Buchstein). This is followed by 3 to 5 rappels, whereby at the 2nd rappel (chain anchor) you should rope through about 22m over the ledge (anchor on the right side of the ground). From the next stand you can again rappel about 23m down to the bottom, but the rope retrieval here could be tricky. A longer run now follows, interrupted by 4 more rappels (again, each max. 10m). Then we reach the mouth of the Kirchwandgraben, which descends from the left. This becomes about 100m further downstream the Albertsbach. In this walking and climbing down to the exit left out in front of the road bridge.

Ritorno: (traduzione alternativa)

On the forest road along the Albertsbach downhill, either then across the stream to the Firstalm, if you have a second car there or can be picked up there - or right bank further 1.6 km downhill to the large parking lot.

Some of the bolts are not in good condition (bad rock). On the first rappel, the bolt can almost be pulled out by hand. Otherwise a very beautiful canyon, which could do with some water. (traduzione alternativa)
