<b>Valutazione:</b> ★ 4 (5)	<b>Info:</b> ★ 2.5 (2)	<b>Belay:</b> ★ 3 (2)
<b>Specialità:</b>		
<b>Attrezzatura:</b> Corde: 2x20m (1x40m)		
<b>Sintesi:</b> (traduzione alternativa) Very varied fun tour; little rope use; countless jumps and slides; highlight T16; slippery smooth gneiss rock; dark deep pools; many short swimming passages; very aquatic canyon; with a lot of water, individual passages can be dangerous; in the high season, plan for waiting times.		
<b>Idrologia:</b>		
<b>Accesso:</b> (traduzione alternativa) From the town of Prades direction Perpignan (N116) --> at the turnoff (traffic circle) right direction Villerach on the D24b drive up through small village Villerach --> first asphalt then gravel road to the large parking lot (Colle De Forn) --> here you usually share the parking lot with many canyoneers --> about 740Hm.		
<b>Avvicinamento:</b> (traduzione alternativa) From the big parking lot you follow the gravel road until you reach a signposted (left) parking lot --> at this parking lot you continue for about 100m until you reach the next strong (right) bend --> from here you go down steeply to the left until you reach a ruin --> you pass the ruin on the left (small yellow sign) --> after that you keep to the left until you reach the streambed (blue markings on the trees) (entry altitude approx. 670Hm).#####merge-end#####		
<b>Giro:</b> (traduzione alternativa) This canyon is very beautiful but has dark pools and many slippery places, at the beginning small walking passages --> then follow countless toboggans that you can easily slide --> the next 2 places you can rappel (2x C14 r.) --> the upper of the 2 rappel you can also slide --> short walking distance --> next slide 8m or li. on the rope traverse to a tree S11 (this place can also be left. T7 --> E3 (r.) --> walking passages with rock windows --> several small slides and climbs in the water (! partly stones in the pool) --> at large boulders jump or rappel (6m) over glued anchors possible (! at much water dangerous current) --> jump or rappel 7m in large pools --> T7 in shallow pools with strong current (at much water r.) --> next slide 8m or r. at the rope railing up to a tree S11 (this place can also be avoided r.) --> T7 --> E3 (r.) --> walking passages with rock windows --> several small slides and climbs in the water (! partly stones in the pool) --> at large boulders jump or rappel (6m) over glued anchors possible (! at much water dangerous current) --> jump or rappel 7m in large pools --> T7 in shallow pools with strong current (! at much water r.) over traverse rope to tree and rappel 12m in big pools --> T4 (C6 left) --> the highlight of the tour is a slide that first goes 4m shallow and then without seeing the landing 11m in free fall in big deep pools (!slide posture with upper body far back) --> S-curve slide in nice washed out rock pool --> several small toboggans for jumping and sliding --> C15 over chain anchor left. (or R15 right) --> T6, T7 --> S7 (left) --> S7 --> at the last listed jumps and slides it is possible to rappel on the right side if there is a lot of water --> before the last jump there is a rope traverse (left) where the pools can be avoided --> after the last small flat slides there is a bigger pool --> the exit is on the left side at about 500Hm.		

**Ritorno:** (traduzione alternativa)

The way to the car goes left over very steep path out of the canyon --> at the beginning there is a steel rope, then you follow the blue color markings on the trees or rocks --> after a good 30min you come to the starting point (parking lot).####merge-end####
