Sintesi: (traduzione alternativa) Beautiful forest gorge		
Idrologia:		
Accesso: (traduzione alternativa) Leave the highway from Imperia in the direction of France at Ventimiglia and take the SS 1 (Aurelia) back east to Imperia. About 2 km after Vintimiglia, a road branches off to the left in a northerly direction to Dolceacqua. Follow this road through Isolabona, Pigna and then keep left until you reach the village of Buggio, which has long been signposted. At the entrance to the village, park in the parking lot.		
Avvicinamento: (traduzione alternativa) From the parking lot directly up through the medieval village until you meet the road again. Follow the road uphill to the right until you reach a bend of almost 180 degrees. In this bend, a path branches off on the righthand side over a small flight of stone steps and leads into the valley of the Buggio. The path sometimes seems to get lost (at a fork it is better to keep left, but the right path also leads back to the main path), but then becomes clear again. This one follows always along the edge of the canyons. After the small faded sign depicting a bird, you get close to the stream. Clear climbing tracks then quickly lead down to the streambed. At the entry there is a metal sign mounted on a stone (rules of descent).		
Giro: (traduzione alternativa) Addition to the description "Canyons in Liguria II": The second rappel is higher than 15 m. The 7 m rappel is an overhang, here it goes full through the stream, not feasible at high water level. A jump here is dangerous: jumping off surface is slippery and a rock protrudes far into the pool without being visible from above. Slipping would be fatal. After this key passage, the gorge is easy, but it is better to downclimb the slides.		
Ritorno: (traduzione alternativa) After the water level gauge, follow the path leading to the right at a sharp angle to the streambed, which quickly leads to the village. There you descend again keeping left to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Buggio Équipement excellent. Deux chevreuils morts récemment, sur la fin du canyon (hors d'eau), et qui commencent doucement à sentir. Ça va être une infection dans quelques jours. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21018/observations.html>)
