<b>Specialità:</b>		
<b>Attrezzatura:</b> Corde: 2x30		
<b>Sintesi:</b> (traduzione alternativa) Nice aquatic rappel canyon in beautiful surroundings		
<b>Idrologia:</b>		
<b>Accesso:</b> (traduzione alternativa) From Villach via the A2 in the direction of Tarvisio, exit at Arnoldstein and take the 111-er to Feistritz a.d.G. and in the village center turn right to Vorderberg. Also here in the "Ortskern" and then left to the church Maria Ditch. 50m downstream from the church is a parking lot.		
<b>Avvicinamento:</b> (traduzione alternativa) Pass the church, cross the road bridge and follow the village road for about 500m until a sand road branches off to the right in the direction of Werbutzalm. Follow this forest road for about 120m until another forest road branches off to the left in a right-hand bend next to a spring area. Follow this road for 300m and then branch off to the right onto another, overgrown forest road (blue dot on tree to the left and right of the road). Follow this road for about 1km until you can see the wide gravel bed of the Vorderbergbach stream. Here turn right over the flat slope downstream until you can descend over the erosion edge into the streambed. You reach the stream just above a high scree barrier at the gorge entrance.  If you only want to do the last 7 rappels of the tour, you can follow the old, long abandoned gorge path from the church into the gorge. Wire-rope secured, it goes over a few hairpin bends past a destroyed bridge until you can descend over a rickety, 25m high metal rope ladder into the streambed.		
<b>Giro:</b> (traduzione alternativa) 16 rappelling points on solid but old material. You can almost always avoid the powerful water jet. Pools are generally gravelled. From the intermediate entry the tour is commercial - better belays and fixed ropes to the stands.		
<b>Ritorno:</b> (traduzione alternativa) To the left to the dilapidated Klammsteig and via this back to the parking lot.

All stands ok. Quite pleasant water temperature. We had little difficulty to find the entrance through the forrest road. Leave 100m before the end of the road. Old pathway is officially closed, but may be used to reach 6th rappel. Enjoyed beers in the evening honoring huge toads we met.

Ascent via forest road, this was made new. At a left turn, the old path goes very inconspicuous straight. From the top 16 rappels. From the stands can be abseiled most outside the main water stream, but for the abseiling passages I would not have to have more water (see pictures). (traduzione alternativa)
