Paese: Schweiz / Switzerland Regione: Kanton Tessin / Cantone Ticino Sottoregione: Bezirk Leventina Città: Chironico		
Difficoltà: difficile	Grado: v5 a5 III	Tempo totale: 2h30
Tempo avvicinamento: 5min	Tempo giaro: 2h	Tempo ritorno: 25min
Altitudine di entrata: 775m	Altitudine di uscita: 605m	Altitudine delta: 170m
Lunghezza del canyon: 300m	Rapel più alto: 32m	Quantità rapelli: 8
Transporto: a piedi	Tipo di roccia: gneiss	Area di ingresso: km ²
Stagione: giugno - ottobre	Orientamento: Sud-Est	Tempo migliore: 9-16 Ore
Valutazione: ★ 3.6 (1)	Info: ★ 2 (1)	Belay: ★ 0 ()
Specialità: Diga, § Divieto,		
Attrezzatura: Corde: 2x 40m		
Sintesi: (traduzione alternativa) Watery and short rappel canyon below a reservoir		
Idrologia:		
Accesso: (traduzione alternativa) From Biasca on the main road for about 13 km in north-east direction (Gotthard). A good 5 km after passing through the village of Giornico, turn left and head west up to Chironico. At the entrance of the village (on the above mentioned CNS map at the altitude "787") we take the road on the left that leads us in a wide curve to the south side of the village of Chironico. Here we park the car in the parking lot on the right, below the road.		
Avvicinamento: (traduzione alternativa) From the parking lot on the road in a southeasterly direction - along the small reservoir - to the dam with company house, passing it on the left and then in a right turn down to the channel. Access directly at the horizontally shooting out water jet with a 7 m jump possible.		
Giro: (traduzione alternativa) At the very beginning there is a 22 m slide. Immediately after left exit possibility. According to Nizzola, "the descent into hell" begins here. The difficulty arises from the fact that after the rappel into the narrows in the water spray, a handrail must be set up and the following 30 m rappel in the lower area leads into a chute (with full water pressure), from which one should keep out as much as possible (pendulum straddle).\nDespite its short length, the Ticinetto is one of the most attractive canyons of the Ticino, both from a sporting and scenic point of view. Water drainage with a small reservoir above the entry. Before and after(!)the tour, therefore, contact the power plant operator (SES): Tel. 0041(0)917569301\nWith regard to the amount of water also note the overflow from the reservoir! (in this respect, Nizzola is wrong when he refers only to the pool after the sheet pile wall).		
Ritorno: (traduzione alternativa) At the water diversion, exit to the right over the iron ladder, then cross the stream to the left and, starting under the large downspout, walk up the footpath to the entry.		
Coordinate: Inizio del canyon 46.4211 8.8471 Fine del canyon 46.4198 8.8503 Parcheggio Entrata e uscita 46.4216 8.8473		

Rapporti:

Today this one was on the schedule, Unfortunately at the entrance there is a sign specifically forbidding canyoning. (traduzione alternativa)
