<b>Specialità:</b>		
<b>Attrezzatura:</b>		
<b>Sintesi:</b> (traduzione alternativa) South-facing canyon - parallel to the Rasiga - with a beautiful ambience, but also a distinctly sporty touch.		
<b>Idrologia:</b>		
<b>Accesso:</b> (traduzione alternativa) From the center of Domodossola, first head towards Bognanco. When you reach the bridge over the Torrente Bogna, do not turn left and continue towards Bognanco, but cross the bridge and about 350m further on turn left towards Monteossolano. We park our car in the large parking lot in front of the village (780m altitude).		
<b>Avvicinamento:</b> (traduzione alternativa) We cross the village and then take the trail "D4" to the (ruined) Alpe Pertus (1075m altitude). Continue uphill on the "D4" - roughly parallel to the Variola - towards Alpe Corte, La Balma. At 1110m altitude and a few meters before a side stream, an inconspicuous track goes off to the left and we arrive at a footbridge in the stream (1140m altitude). In various descriptions are described entries further up and further down.		
<b>Giro:</b> (traduzione alternativa) After the first pools and some walking passages, the stream begins to notch. In total, almost rappel, but also some possible jumps await us. At the dam, the descent is sensibly terminated, as the further descent to the entry into the lower part is only tiring.		
<b>Ritorno:</b> (traduzione alternativa) After climbing the wall, we take the path that descends along the left bank. We meet the connecting path Monsignore - Monteossolano "D0". On the right we go to the entry to the lower Variola. We go left and so we come back to Monteossolano and to the car.

It should be sure to get out at the dam, because the section to the start of the Inferiore is very tedious and no hooks are drilled! Very fun slides, a perfect 12m jump, very nice sections but also at times much to climb off. Got in a little too high and drilled 1 piton. Further down good chain stands. (traduzione alternativa)
