Several small steps and slides in the lower gorge.

The belay must be climbed strenuously. \n * 4m rappel from anchor right\n * 6m rappel from anchor right\n * 22m rappel from anchor right behind the edge, be careful when reaching the belay, better belay from the previous belay. Anchors still somehow ok. It would be nice to be replaced. Take some mailons with you. We had quite ok flow, but still pushy on some parts. Be careful on the undercut in the upper part and sifon in the lower part. Otherwise beautiful canyon!
