<b>Sintesi:</b> (traduzione alternativa) (Formerly a) wonderful slide and jumping canyon. Caution: At the exit of September 2020, the storm "Alex" triggered a mudslide that thundered through the entire canyon, causing a lot of destruction, especially in the grotto, and graveling up the gums so that slides and jumps were no longer possible. Nothing has fundamentally changed since the exit in 2023. The canyon is accessible again, but has largely lost its special charm. The easiest way to read an update on the details is under "debits" at <a href="https://www.descente-canyon.com/canyoning/canyon-debit/2235/observations.html">https://www.descente-canyon.com/canyoning/canyon-debit/2235/observations.html</a> . Here you can also find photos of the tours after "Alex".		
<b>Idrologia:</b>		
<b>Accesso:</b> (traduzione alternativa) Above Breil-sur-Roya, follow the D2204 towards Sospel. After two hairpin bends, take a sharp right at some garbage cans and follow the mostly single-lane road to a large signposted parking lot.		
<b>Avvicinamento:</b> (traduzione alternativa) Follow the road briefly out of the valley and change to a sand road at the information sign. Follow the road until just before its exit and turn right at the signs onto a good path. Descend via many hairpin bends until a path branches off to the right just before reaching the streambed. Follow this path to the entry at a large basin. You can also do the tour with just one car. Then park the car in La Giandola near the bridge and hike up the beautiful wall above the canyon - takes about 80 minutes.		
<b>Giro:</b> (traduzione alternativa) You can slide and/or jump in at least 15 of the approx. 20 places. It is better to go at the wrong time, as there are many groups (the first groups usually appear just after 9:00). At the key point, the rappel into the cave, you can climb up to the right and rappel through a hole. Good overtaking possibility. Two traverses are set up as via ferrata.		
<b>Ritorno:</b> (traduzione alternativa) After a nice 5m jump, a clear path leads off to the left which you follow to the mule track above the canyon. Follow this out of the valley down into the village.

Automatisch importiert von Descente-Canyon.com für Canyon Maglia Maglia enchaînée après Morghé. À la fin de morghé, bien bifurquer sur RG apres la C50 pour enchaîner avec une C16 qui vous jete directement dans la maglia aval. Encore un beau débris pour un mi juillet !! Tous les sauts passent (méritent parfois de bien amortir mais ça passe en faisant attention aux pierres). Comme les autres le débit oblige de prendre La grotte par l'échappatoire.À la fin de la maglia compter 20 minutes de marche pour sortir sur la roya et rejoindre la route de breil.si vous ne voulais pas faire de navette, attention le sentier est fermé et cela n'est pas indiqué. Il faut donc remonter à pied via la route(compter une bonne heure sur un rythme soutenue de breil jusqu'au pont de morghé). Fait en 1h15 à 2 (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2235/observations.html>)

Together with Sára and Rok - then met the local Pro's downstairs. :) Fantastic canyon - even if many pools have been buried since Alex, the scenery is still top! Justified 4\* at Descente! You can also jump a bit, but you have to know exactly where (!). Quite a lot of flow, but it only got bad (but not dangerous) in one place. (traduzione alternativa)
