| Sintesi: (traduzione alternativa) Varied rappel canyon in layered limestone | | |
| Idrologia: | | |
| Accesso: (traduzione alternativa) Either through the Var valley on the following route. Route: From Nice on the N 202 through the Var valley to the north, then west via Puget-Thénier to Entrevaux. From here, continue for another 9 km in the direction of Digne, then the road crosses the river Galagne on the Pont St. Joseph, which flows under the bridge in the Clue de Rouaine. About 100 m before the bridge, you can park on a disused road loop. Or you can come from the opposite direction Castellane am Verdon: Then drive 1 km from Castellane on the N 85 (Route Napoleon) in the direction of Digne (northwest), come to a traffic circle, turn right here onto the D 955 in the direction of St.-André-les-Alpes, drive north along the eastern shore of the reservoir and after 13 km (from Castellane) you will come to the N 202. Turning right onto this road and driving eastwards, after another 15 km you will also come to the Pont St. Joseph mentioned above with its parking lot (about 100 m after the bridge on the right). | | |
| Avvicinamento: (traduzione alternativa) From Pont St. Joseph, we take the dirt road that leaves the D 202 in a south-easterly direction. After a few hairpin bends, you gain an insight into the canyon. After about 20 minutes, there is a telephone mast on the left-hand side of the track. Opposite - cairns - a path turns off the track and takes you downhill, following the tracks further down to the right directly to the entry point at the beginning of the narrow section. | | |
| Giro: (traduzione alternativa) At the beginning a series of rappels without a running section, then after a change of direction of the stream, it goes over some steps around or below 10m height, interrupted by shorter running sections up to the river Calange (car wreck). | | |
| Ritorno: (traduzione alternativa) After reaching the Galange River, wade or swim downstream through the aforementioned Clue de Rouaine until, where the river bends into an open bed to the NNW, a clear track on the right leads north out and then right up to the road (and parking lot). | | |

Automatisch importiert von Descente-Canyon.com für Canyon Saint-Jean Parcouru depuis l'amont, la marche d'approche est magnifique. Les cascades amont sont sympathiques, la marche en rivière qui suit est sans difficulté mais un peu longue...Partie aval très débonnaire avec une succession de petits rappels.Le sentier de sortie pour remonter à la route est difficile au milieu des ronces et des orties, nous avons regretté de ne pas avoir nos combinaisons. Automatisch importiert von Descente-Canyon.com für Canyon Saint-Jean Belle enchaînement de rappels dans ces conditions d'eau ! Les amarrages sont en bon état. On n'a parcouru que la partie basse. Il n'y a pas de mouvement d'eau dangereux mais certains rappels sont bien arrosés. Le retour via le collecteur ne pose pas de problème. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2107/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Saint-Jean Très beau canyon dans ces conditions. Aucun mouvement d'eau dangereux, on a pied dans toutes les vasques. La première partie est assez jolie, mais on déconseille de la faire car cela représente 4 cascades pour 1h de marche dans la rivière. Ça ne vaut pas vraiment le coup. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2107/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Saint-Jean Comme prévu, refait (uniquement partie aval) en initiation. Top conditions et les "nouveaux" sont ravis (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2107/observations.html>)

2023-10-21 | System User | |📖|📌|🌊 Normale | 🟢 Completato

Automatisch importiert von Descente-Canyon.com für Canyon Saint-Jean Fait en intégral. Rando d'approche très jolie même si un peu longue. Partie amont sympa, mais là marche intermédiaire de 1h30 fini d'enterrer la partie amont ; dommage Partie aval beaucoup plus intéressante, un bel enchaînement du début à la fin. Belle découverte, partie aval à refaire sans hésiter pour des initiations (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2107/observations.html>)
