| <b>Sintesi:</b> (traduzione alternativa)<br>varied - jumps, slides, rappel, climbing through tree stumps. Partly it looks wilder than it is. Pools often only very shallow!   |  |  |
| <b>Idrologia:</b>   |  |  |
| <b>Accesso:</b> (traduzione alternativa)<br>Directly to the Haldensee. Choose the parking lot for Tauscher's Alm or Naturcamping at Haldensee as your destination.  |  |  |
| <b>Avvicinamento:</b> (traduzione alternativa)<br>From the parking lot, cross the bridge and then follow the path to the right. At the slide brake or shortly after at the small bridge the water level can be checked. Then continue uphill first on the hiking trail, then on the forest road until it crosses the Strindenbach stream at a bridge.   |  |  |
| <b>Giro:</b> (traduzione alternativa)<br>The first third to the A27 relatively open with small slides or possible jumps in rather shallow! pools. The canyon then becomes more incised and offers after the 27m rappel still very nice steps with mainly flat pools. At high water levels can be used at a critical point in the last third redirectors for rope traverses to avoid the water. The anchors are drilled here quite high and may be more difficult to reach from below. |  |  |
| <b>Ritorno:</b> (traduzione alternativa)<br>After the brick slide brake (last rappel) walk a few meters further until you can easily exit to the right at a water intake on the left bank onto the access path.   |  |  |
