Specialità:		
Attrezzatura: Corde: 1x30m		
Sintesi: (traduzione alternativa) Fun canyon with smaller rappel, well suited for beginners and children. It is an absolute highlight for children. It is very varied.		
Idrologia:		
Accesso: (traduzione alternativa) From Nice on the N 202 Along the Var River northward for 32 km. Then we turn into the Vallée de Tinée, driving on the M 2205 in the valley towards La Tour sur Tinée. After 3.4 km from N 202, you can see the mouth of the Cramassouri from the opposite side of the river. Park the lower car here. With the second car continue 1.2 km on the M 2205, then turn right on the M 32 in the direction of La Tour. The road goes uphill for almost 3 km until you reach a hairpin bend. Park the second car there.		
Avvicinamento: (traduzione alternativa) We now follow the newly built path, starting about 200m before (below) the hairpin bend, down to the Cramassouri. Alternatively - with only one car - you can also get to the entry from the parking lot at the exit via a nicely laid out path in about 30min. One crosses the Tinée above the Cramassouri River. There begins a path that leads to the access road a few 100m below the parking entry.		
Giro: (traduzione alternativa) Many slides in an increasingly narrow canyon. Jumps also possible. Highlight a 10m slide at the exit of the tour.		
Ritorno: (traduzione alternativa) After reaching the Tinée through the river and beyond up to the car - or back to the parking entry on the path described at the access.

Automatisch importiert von Descente-Canyon.com für Canyon Cramassouri Depuis le passage de la tempête Alex , plus de saut possible mais bien que moins ludique, visuellement parlant le canyon est encore beau (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2151/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Cramassouri Évidemment tout est engravé même si c'est en cours d'amélioration. Toutefois, ça reste joli et agréable à parcourir avec des débutants. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2151/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Cramassouri Check de curiosité post Aline. Peut être que certains endroits ont commencé à doucement se creuser. On est loin..très loin de retrouver le crama d'antan.équipement ras , nombreux points autres que origine CG.ça reste une jolie ballade pour s'aérer ou faire découvrir l'activité tranquillement.bon débit + un gros tronc et du bois mort, après le rappel de 4m du milieu, à 1m de haut .. en contraste avec Alex qui les a mis bien plus haut.retour par le sentier en amont rive gauche tinée : on le retrouve facilement après avoir marcher sur la plage de bois 2024. prévoir sécateur pour mieux marquer le sentier pour les suivants.
